### Historic Preservation

These issues were divided into two categories in the survey — issues related directly to adjacent landowners and issues related to general public access.

### Access for everyone

Hunting Most Land Trusts Allow Hunting Sixty-nine percent 69% of respondents indicated that they allow hunting on some or all of their lands. When buying a ranch, buyers are often concerned about the impact a CE will have on the land. Working with the significant support of the National Trust in Victoria, the ACNT has made concerted efforts to gain Commonwealth Government financial compensation for the considerable financial impact on the National Trusts of Australia as a result of the enforced closure of revenue generating venues providing essential income supporting National Trust places and operations.

### Conservation Easements

The survey asked that land trusts exclude improper use of the property in their responses; regardless, the predominant issue reported by land trusts is the improper access of preserves by motorized vehicles such as ATVs and snowmobiles. Another attraction of NTS is the ability to pay subscriptions monthly by direct debit.

### Working for conservation and access at Dolaucothi

So I was disappointed by that decision too. I wish I could designate where my subscriptions for other organisations are to be used after admin costs. Carers or companions with the group are welcome free of charge.

### National Trust Jobs :: Conservation

However, we are really pissed off with them regarding the fox hunting vote and the mess they made of the grouse shooting on their land in the Peak District.

## **About us**

Last year I could no longer regard them comfortably as an entirely reputable conservation organisation, as they had in my opinion tacked too far towards the Daily Telegraph vision of conserving wildlife to be killed for so called sport. One respondent indicated that one of its preserves is closed December to March due to potential dangers arising from inclement weather. Other times, the seller may need both cash and donation-linked tax benefits.

## **Access for everyone**

One way VLT makes land more affordable for farmers is to purchase conservation easements on farmland, as VLT did with Elmer Farm. NTS apply the senior discount to husband and wife as long as one partner is of eligible age, NT does not and you have to have been a member for a requisite number of years.
