National Behavioral Systems

The issue seems especially pointed when adolescents talk about activities that, while not necessarily dangerous, are illegal, such as shoplifting, the recreational use of alcohol or experimenting with drugs. . In addition to individual therapy, the skills are also summarized for use in groups with teens and their caretakers.

Trauma Informed Approaches

The book fills an important gap in our literature on groups, and I strongly recommend it to any institution harbouring children, to any professional contemplating running a group for children and adolescents, and to those already in the thick of it. Shining a light on supervision: Lessons from the Beacons Out of School Time Public Policy Commentary 16, February. Good supervision is focused on the self-awareness of the worker, and prompts a deep understanding of their reactions to their client's experiences and behaviour.

Working with adolescents: Supervision

The difficult nature of working with adolescents highlights the weight of non-managerial supervision for youth workers. Journal of Child and Youth Care, 15 2 ,23-32.

What Works When with Children and Adolescents

Within numerous settings and diverse roles, youth workers are tasked with building rapport with clients whose experience of adult relationships may be adverse, and whose external environments may be volatile, further challenging the development of a trusting, professional relationship.
