History of Philosophy

Using dense but cogent arguments, he developed the rather counter-intuitive system known as Immaterialism or sometimes as , which held that underlying reality consists exclusively of minds and their ideas, and that individuals can only directly know these ideas or perceptions although not the objects themselves through experience. The problem is that whatever the source of justification may be, that source must either be without justification in which case it must be treated as an arbitrary for belief , or it must have some further justification in which case justification must either be the result of , as in , or the result of an , as in. It was an important theme for the ancient Greek philosophers what the arche was.

Both elements and substratum come out of the vast ocean of uncertainty, float on it and then, failing to maintain themselves, sink into it. The Cambridge Illustrated History of China.

How To Begin Reading Philosophy

Although men have generally dominated philosophical discourse, women philosophers have engaged in the discipline throughout history. And God said, Let there be light: and there was light. He created an even more comprehensive system of philosophy than , encompassing , , , and science, and his work influenced almost all later philosophical thinking, particularly those of the period.

History of Philosophy

He began a project, with the help of the King, called The Great Renewal, which was to be a review of all the sciences. These groupings allow philosophers to focus on a set of similar topics and interact with other thinkers who are interested in the same questions. They pronounced him guilty of heresy.
