## Origins of Aryans

As there are degrees of development, the boundary between a language and a dialect thus defined is not clear-cut, and there is a large middle ground where assignment is contestable. At that point, Indo-Aryan began to treat voiced plosives as a little more marked compared to voiceless ones in order to distinguish voiced from voiceless aspirates.

## Dogri : A History & Linguistic Classification » Dogri

§59 The athematic imperative 2sg. Chapter - IV depicts a phase of change in the realm of MIA languages 1st century S. To complete the picture, Ahura Mazda was given an opponent, the non-ahuric daeva Angra Mainyu, the 'Evil Spirit'.

## Introduction to Old Iranian

Anatomically modern humans in Europe also had to struggle to survive - especially in the more northern parts. Now, that was not a Pūru territory, and interestingly one Citraratha king is in the Puranic list of the Eastern Anavas, who reigned beyond the Sarayu.

## Shrikant G Talageri: The Recorded History of the Indo

Sommer, Ferdinand and Raimund Pfister. The parallels in grammatical gender evolution between Romani and other NIA languages have additionally been cited as indications that the forerunner of Romani remained on the Indian subcontinent until a later period, possibly as late as the tenth century.

## Shrikant G Talageri: The Recorded History of the Indo

We have different views, and that's OK.

## Historical phonology of Old Indo

The aorists akah 'made', adat 'took' are also used. Perhaps Vyasa's attempt at cleansing references to what may be a foster child. Thus, short

stature, short face, and short lips are assigned to the Negrito, who live in the Andaman and Nicobar Islands and the Nilgiri Hills of Tamil Nadu.

### **The decline of labile syntax in Old Indo**

It seems that the process of the dispersal of the Dravidian speakers started in about 30,000 BC and continued until 4000 BC. §118 Gemination across syllable boundaries in Indo-European The doubling rules prescribed in the  $\text{Pr}^- \text{at}^i \text{'sa}^- \text{khyas}$  create gemination across a syllable boundary if the aperture of the consonants across the syllable boundary is different §23.

### **phonology of Old Indo**

Otto Schrader, another linguist who wrote an entire encyclopedia on Indo-European antiquities, concluded that the Indo-European migration began from the Pontic steppes north of the Black Sea, or the Pontic-Caspian Steppe.
