## OCLC Classify

The database is searchable by many of the standard numbers associated with books, magazines, journals, and music and video recordings. OCLC does not sell books and the actual content is not provided in our database. Thirteen-digit ISBNs must begin with either 978 or 979.

## NIOSHTIC

The Classify prototype is designed to help users apply classification numbers.

## Survey of nuisance and biologically active dusts in metal and nonmetal mines

Classification schemes are used to provide a systematic arrangement of materials. Libraries add bibliographic records to WorldCat representing books and other items in their collections. This was accomplished by ranking numerical values derived from a matrix formula calculation that took into account dose, mine population, and sampling size.
