Close firmly... and then zap in short 30-40 second bursts. I wanted to let you know that the story published this morning on Kenarry: Ideas for the Home. You can then create your own flower collection or make some beautiful art.

### DIY Pressed Flower Art in a Floating Frame

We did these together, so applied amply and I think the strokes add to the final effect! Once dry, you may remove your plants from the press and start getting creative! Directions Step 1: Select and prepare flowers to press My has allowed me to press a variety of plants and flowers, including roses, angelonia, esperanza, plumbago, vincas, crepe myrtle blossoms and ferns. Once your flowers are dry, carefully remove them. Place your flowers between two sheets of paper in the book.

### How to Dry Flowers: 4 Simple Ways + Decor Ideas

Step 5: Remove from sand and display! They will keep drying inside of the frame and even if they stay in place while you create the arrangement, they could get thinner over time and slide down.

### How to press flowers

To keep pristine, spray with unscented hairspray.

## **How to press flowers**

The beauty of this craft is that it will last for months. In order to preserve them for as long as possible, it is helpful to seal them.
