Analysis of agriculture data using data mining techniques: application of big data

In this process, aerial photographs are generated by the agency undertaking the survey. The opinions expressed herein are entirely those of the author s.

RAS

An important question that arises is whether the growth rate would have declined if there was no jump in wage rates after November 2013.

Commission for Agricultural Costs and

In addition, six new agricultural occupations have been added to the list. Government guarantee provides for compensation to a person who suffers loss of land.

Commission for Agricultural Costs and

However, the agricultural planning process requires a yield estimation of several crops. Lastly, in spite of a period of high growth in agricultural and non-agricultural wage rates, the female-male disparity has not shown a tendency to fall, and this is another area for further study.

Analytical Reports

Rain fall data is clustered into 4 clusters by adopting the K means clustering method. States should reduce stamp duties from the present range of 15% to the level of three to five percent. Maintenance of land records Land administration essentially involves recording, processing and dissemination of information about the ownership, value, and use of land.

Modified approach of DBSCAN Before applying DBSCAN algorithm on the dataset user needs to determine the Minpts and Eps values.

Table 2 Average annual rate of growth of wage rates for major occupations in rural India in per cent State Ploughing Male STW Male STW Female HTW Male 1998—99 to 2006—7 2006—7 to 2014—15 1998—99 to 2006—7 2006—7 to 2014—15 1998—99 to 2006—7 2006—7 to 2014—15 1998—99 to 2006—7 2006—7 to 2014—15 1998—99 to 2006—7 2006—7 to 2014—15 Growth rate Growth rate Growth rate Growth rate Growth rate Growth rate Growth rate Growth rate Growth rate Andhra Pradesh 1. Even now, average yields of most crops in India are rather low.

Analysis of agriculture data using data mining techniques: application of big data

Other schemes to improve land records and administration that were introduced around the same time were the Strengthening of Revenue Administration and the Updating of Land Records schemes. Flow of data from these agencies is not considered satisfactory.
