## Mining Equipment

This job is normally performed by humans, but after a hard day in the mine it can be difficult to do, so Julius offers a good alternative. . For mining companies to remain competitive, this will require further innovative designs and technologies that improve the capability, efficiency, and reliability of mining systems responsible for sensing, analyzing, extraction, and refinement.

## Savings in coal mining

For underground mines, this presents a fire hazard as well as potentially destabilizing and collapsing the mine.

## The future of mining in Ghana: Are stakeholders prepared for the adoption of autonomous mining systems?
