## Environmental Sociology

The only thing that can be tested is his assessments that are only to see if the therapy is working more than actual being part of the theory. For example, the penalties for crack are much harsher, gram for gram, than those for powder cocaine, even though the two drugs are pharmacologically identical. For example, nuclear power has been a major environmental controversy since the 1970s.

## Sociological Theory bibliography

Rogers data was collected before and after his therapy sessions in the form of having the client rank themselves as they are currently and then they would rank themselves as they see their ideal self. She has a keen interest in social work and has collaborated with many volunteering programs in the past.

## 7.4 Explaining Drug Use

A sociological theory seeks to explain social phenomena. Although for the individual greed a strong desire for wealth is good, the social group that individual belongs to may think greed is bad for her.
