modifiable areal unit problem

The long and highly productive collaboration with Loomis and Klatzky and their multiple graduate students was still ongoing when Reg died. This section includes details of career destinations of the Ph. Subsequently senior research analyst at ODPM and the Cabinet Office.

Golledge, Reginald

Perhaps the most exciting was his collaboration with Larry Hubert, then a professor in the College of Education at UCSB.

Attempts to delineate functional regions in Hungary based on commuting data

Golledge was an intellectual giant in his field. That began 25 years of intense collaboration, which took my research in a new direction towards dissecting spatial cognition. It is published three times a year and aims to re-energise the subject at all levels of education by stimulating dialogue and debate about the essential character and contribution of the subject.
