## Professor Gawen Jenkin — University of Leicester

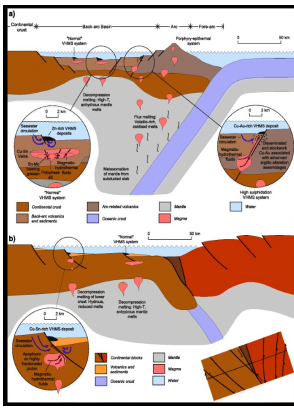

Nickel is a chalcophile element which prefers sulfides, so an ultramafic or mafic rock which has a sulfide phase in the magma may form nickel sulfides. Developing exploration models for copper silver mineralisation in the Kalahari Copperbelt, Botswana — Mineralogy, Geochemistry and Structure Alex Gorman; with Hana Mining. American Journal of Science, 306, 389-427.

## Fluid inclusions in hydrothermal ore deposits

The salinity of the inclusions within the fluorite of this category widely ranges between 0.

## A demonstration of an affinity between pyrite and organic matter in a hydrothermal setting
