Canadian Mineral Exploration Information Bulletin

As a company proves there is a mineable deposit in the ground, more value is created for shareholders along the way.

How Canada's Mining Sector Impacts the Economy

The Ministry of Energy, Mines and Low Carbon Innovation EMLI and NRCan both compile data on provincial exploration spending.

Updating Canadian Exploration Expenses

Increases in exploration spending for graphite, another mineral used in advanced battery technology, have been offsetting declines in spending for potash for the past two years. Ontario—the largest minerals and metals producer in Canada—counts gold, copper and nickel as its main products, while Manitoba is the top Canadian producer of zinc.

Mineral Exploration

Complete coverage of project evolution from exploration to mine production allows a better understanding of the components illustrated in the statistical tables.

Eagle Plains Resources

In the same year, it provided 596,000 jobs 403,000 direct jobs in urban, rural and remote regions of the country.

Banner year for exploration in B.C., despite pandemic

Ports in British Columbia are a major gateway to get Canadian minerals and metals to and from Asian markets. Gains were reported in all

jurisdictions except for Quebec, Manitoba and Nunavut. The exploration work phase is defined as the search for, the discovery of and the first delimitation of a previously unknown mineral deposit or the re-evaluation of a sub-marginal deposit in order to enhance its potential economic interest.
