Jun HU :: HU, Jun » Semantic Connections: Explorations, theory and a framework for design

When moving away from interaction with a single product towards interaction with a system of products, designers need to find ways to communicate the relationships between the products and the larger system they are part of.

Uriel Weinreich, Explorations in Semantic Theory

This is true unless we have prima facie evidence that most non-human animals do not have internal representations.

Explorations in semantic theory. (1972 edition)

So, it is much more common for there to be meaning without language than meaning with language. Attardo 1997 discussed the relationship between the GTVH and incongruity-resolution theories discussed in Chapter 2: Classic Theories of Humor.
