Five Times Five: Five Activities for Teaching Geography's Five Themes

Case studies and general teaching resources that can be used immediately. Who correctly guessed the most places? Students can create graphs to show how the town's population has changed over the decades. Let us know what you think.

PEDAGOGY OF GEOGRAPHY [Teaching of Geography]

This game is a fun way for students to learn about landforms around the world.

Teaching of Geography

Pose these questions to students: What if the yard outside your house were never touched? Then read highlights from this interview of a business executive who has and this story about , and discuss the main points or lessons of each story. Understand how we move people, goods, and ideas across the planet; and 5. The students by this method, understand the importance of learning by doing and direct experience of things.

Teaching Geography

In November 1988 the Council of Chief State School Officers CCSSO surveyed forty-one states and territories concerning geographic education. Unfortunately, the number of professional geographers is limited—hardly a drop in the bucket when compared to the number of professional historians, for example—so it is to be expected their ability to help teachers will also be limited. To create this article, 9 people, some anonymous, worked to edit and improve it over time.

Geography

Geography helps one understand the physical and cultural characteristics of the world. On the first school day of each month, students collect information about the weather in that city.

geography

Connect the geography to another area of interest. Then read stories about how and an threw a monkey wrench in the. Older students might design postcards.

Guide for Teaching World Geography

Often such an emphasis results in students trying to memorize information in isolation rather than trying to analyze relationships. All schools do not have resources to use this method.
