Committee Transcript 2005

A polymer which works very well with one sludge may be completely ineffective with the same type of sludge from another plant. There's absolute evidence of that; no question.

Committee Transcript 2005

Therefore, we are requesting that the committee amend the bill to permit an expansion of our urban areas, provided it is justified through a local planning initiative, e. The important point is to see where your background allows you to make substantial contribution to resource analysis, not to eliminate problems because they do not fit neatly into disciplinary bounds.
