Trends & Statistics

Audit students are assessed all applicable fees. This includes Gulf Coast policies and procedures as well as resource information that will aid students in making informed decisions. .

Can Independent Power Producers Be Investment Grade?

Due to a combination of the expansion of its retail power business, backwardated wholesale margins, and our expectations of additional plant closures, we expect NRG's retail business to account for about 75% of the company's aggregate EBITDA by 2023, up from 50% now. But the questions remains: Can they achieve an investment-grade rating? Aside from stated and traditional means of obtaining credit, special policies, procedures and services are available to active-duty personnel.
