Guy Burgess and Heidi Burgess. As problems mount, the organizations that deal with society's problems come to rely on each other for help -- they are interdependent.

## Strategic Planning in the Public Sector

The strength of the approach is its ability to recognize and analyze key issues quickly. Few studies have taken this approach.

In fact, deferment, change of loan terms and deadlines, refinancing or even write-offs or debt forgiveness are more common outcomes.

## Federal, provincial, and territorial engagement mechanisms

Furthermore, the findings are also at odds with the conventional wisdom that rational approaches are untenable in the public sector because of the technical problems of acquiring necessary data and information, and because of the political problems raised by competing stakeholders, including issues between the planners and those being planned for.

## Strategic Planning in the Public Sector

These issues include building support with constituencies and others who are affected by the agreement, monitoring the agreement, and ensuring compliance.

However, while CPEC is still one of the largest bilateral investment projects underway anywhere in the world, today its momentum in Pakistan is being regularly questioned.

### **Federal, provincial, and territorial engagement mechanisms**

Decisions will be made, and a process, usually including for participant behavior will be set. The weaknesses of the approach include the difficulty of deciding on the dimensions, arraying entities against dimensions, understanding how to fit the approach into a broader strategic planning process, and managing the politics of winners and losers.
