They have plenty of access to trout and with those kinds of densities, I'm sure that they haven't had to resort to eating suckers much.

Colorado Headwaters Fisheries Management: February 2013

Lake trout also are biting well on sucker meat in 60 to 80 feet of water. Splake and Snake River cutthroats are also stocked here. Bear Creek - Water is clear and fishing is fair to good.

Selected Coldwater Fishing Spots in Colorado

On the Colorado side of the reservoir, pike are biting on perch-colored crankbaits and chartreuse spinners off the points. Boaters are reminded to look out for unmarked hazards that may reach or break the surface as the lake level drops.

Colorado Kokanee Fishing

Although there is not a DPW survey on Dillon, isn't that lakes biomass made up of mostly suckers? Smallmouth bass are also active in Massey Draw and along the dam, hitting on tube jigs and minnow imitations. Fishing for all species is poor. But you can still catch a few early morning and evening.

Colorado Kokanee Fishing

Rio Blanco Lake - Cooler weather has improved fishing.

Colorado Headwaters Fisheries Management: Grab bag

It also yields some large brown trout of up to 14 inches.

Find Out All About Kokanee Salmon Fishing in Colorado

Jumbo Reservoir - Lake level is down, the water is becoming choked with algae and fishing is poor. Taylor Reservoir - Rain and cooler weather have put fish on the bite.
