How will the new normal look like for the cruise ship crew?

Cruise lines invest heavily to attract the best people, offering competitive wages, benefits and opportunities for career advancement—not to mention the opportunity to see and travel the world. When the time is right for cruise operations to safely resume, cruising will be an important contributor to fueling the global economic and societal recovery. This demand for leisure, fun, or luxury sea travel has fueled the production and deployment of vessels growing in both numbers and size: In 2019, the reached an all-time high of 550 passengers; however, this capacity was mostly left untouched in 2020 following the outbreak of the coronavirus COVID-19 pandemic, which hit the cruise market hard and continues to put the entire on hold.
