Messerschmitt Bf 109: The Design and Operational History

The DB 605 suffered from reliability problems during the first year of operation, and this output was initially banned by VT-Anw.

Messerschmitt Bf 109 Fighter

Communications equipment was the FuG 7 Funkgerät 7 radio set short-range radio apparatus, effective to ranges of 48—56 km 30—35 mi. JG2 also displayed a modified fuselage cross where the proportions of the white segments were reduced in area to decrease their visibility.

Light Blue 65 RLM 65 Hellblau, the diversity in upper surface patterns and colors is far more difficult to ascertain. Even the maiden flight date is not known; it is established that Hermann Wurster flew it at Augsburg on 17 August 1939. The final production version of the Bf 109 was the or Kurfürst, introduced in late 1944, powered by the DB 605D engine with up to 2,000 PS 1,973 HP.

In 1935, the first Jumo engines became available, so V2 was completed in October using the 449 kW 600 hp Jumo 210A engine. Romania used its Bf 109s until 1955. These were later renamed Fliegerkorps Air Corps.

Messerschmitt Bf 109 variants

Some of the projected 109K-series models, such as the K-6, were designed to carry 30 mm 1. Although the Bf-109 had weaknesses, including a short range, and especially a sometimes difficult to handle narrow, outward-retracting undercarriage, with well trained pilots; it stayed competitive with Allied fighter aircraft until the end of the war. RLM 70 was to be used only on propellers, and RLM 74 completely withdrawn.

Messerschmitt Bf 109 Fighter

The Hurricane was considerably slower, but it could outturn the Messerschmitt, as could the Spitfire in the hands of a skilled pilot.

Messerschmitt Bf 109 variants

The remaining three letters in the registration system were allocated in alphabetical sequence that started at AAA and ended with ZZZ. Due to priority to the Luftwaffe, Messerschmitt was unable to oversee the start-up of the production line. The next year, the was introduced, and hammered the final nail into the coffin for the Republican Air Force.

Messerschmitt Bf 109

A lightly-armed reconnaissance version Bf 109F-5 and F-6 was also born of the F-models. The German Air Ministry RLM sought to provide its Luftwaffe with Germany's first-ever modern monoplane fighter to replace the outmoded and outgoing models in the Arado Ar 68 and the Heinkel He. Because most fighter pilots of the Luftwaffe were used to with open , low wing loading, light and easy handling like the , they were very critical of the Bf 109 at first.
