### The 7 Best Natural Insect Repellents of 2021

Only certain kinds of ticks can transmit specific diseases so some dogs are not at risk for all of these diseases if only one or two kinds of ticks are found where they live. One very effective ingredient used in homemade insect repellents is Oil of Lemon Eucalyptus OLE.

### The 7 Best Natural Insect Repellents of 2021

Best of luck in your adventures with freedom from predation! Why Use Homemade Bug Spray? The fresh scent makes the leaf and the oil a mainstay in many cosmetic and cleaning products.

### 10 Natural DIY Mosquito Repellents For Your Dog

Instead, this repellent is made from 95 percent certified organic soybean oil mixed with small amounts of rosemary, citronella, geranium, cedarwood, peppermint, and lemongrass oils that drive off pesky invaders. All of these amazing creatures will help control your mosquito population.

### 10 Natural DIY Mosquito Repellents For Your Dog

Not sure about the reasons why mosquitoes bite me... I am exactly the opposite of all the things you mentioned.

### The 7 Best Natural Insect Repellents of 2021

They found that a spray repellent containing 5% fennel oil was 84% effective after 90 minutes.

### Ingredients for Making Natural Insect Repellents for Outdoor Plants

The strong scent makes it hard for the mosquito to find its host. Homemade bug spray recipes are also believed to smell better than regular bug spray which may not matter to most but to some the smell of bug spray can cause irritation. Studies show that *Zanthoxylum limonella* oil can block mosquitoes for a variable amount of time, depending on its concentration and combination with other oils.

## **Use Plants As Natural Insect Repellent**

This section is not written yet. Commercial insect repellents that are applied to skin often include DEET or N,N-Diethyl-meta-toulamide. The bite of just one infected mosquito is enough to spread disease, so Animal Humane Society recommends giving your dog or outdoor cat preventatives year-round, to protect them against infection.
