By 1885, nearly two dozen mines were operating in Cambria County, producing a bit more than a million tons of coal — about one-fourth of that was mined by the Cambria Iron Company. The county seat is Pittsburgh. A large brick manufacturing plant was operated here for many years.

History of Coal in Cambria County

In many respects, this view reminded me of what Pittsburgh must have looked like from the 100 years ago. This had to have been a massive reclamation project. The 32-page book presented photographs and narrative regarding the flooding that took place on 19 July, 1977.
