## Lettres américaines d'Alexandre de Humboldt (1798

Artists whom Humboldt influenced, such as , followed in his path and painted the same places Humboldt had visited and recorded, such as the basalt formations in Mexico, which was an illustration in his Vues des Cordillères. Between 1799 and 1804, Humboldt travelled extensively in the , exploring and describing them for the first time from a modern scientific point of view. His depth, his sharp mind and his incredible speed are a rare combination.
