Disposal of hazardous wastes in Australia: Implications for marine pollution

A manipulative field experiment reveals the ecological effects of invasive mosquitofish *Gambusia affinis* in a tropical wetland.

Waste recycling policy in Hong Kong

Hong Kong: University of Hong Kong.

Designing vegetation barriers for urban air pollution abatement: a practical review for appropriate plant species selection

Breakdown of *Ficus fistulosa* Moraceae leaves in Hong Kong, with special reference to dynamics of elements and the effects of invertebrate consumers. Proceedings ASCE Conference on Environmental Engineering, Norfolk, VA, July 25-28, pp. Proceedings of the International RILEM Conference on the Use of Recycled Materials in Buildings and Structures, Barcelona, Spain, November 8-11, pp.

Designing vegetation barriers for urban air pollution abatement: a practical review for appropriate plant species selection

The influence of riparian vegetation on macroinvertebrate community structure and functional organization in six New Guinea streams. Essential biodiversity variables for measuring change in global freshwater biodiversity.

David Dudgeon's publication list

International Conference on Innovation and Sustainable Development of Civil Engineering in the 21st Century, Beijing, August, pp.

Disposal of hazardous wastes in Australia: Implications for marine pollution

Proceedings of 3rd International Symposium of Design and Use of Self-Consolidating Concrete, RILEM Pro 93, pp. Hong Kong: Hong Kong Bird Watching Society. Schweizerbart'sche Verlagsbuchhandlung, Stuttgart: viii + 147 pp.

Characteristics and treatment of leachates from domestic landfills

Association of the Dutch Chemical Industry VNCI , ed.

ch06

Reflections on the 1974 American Physical Society Summer Study and on the Task Ahead.
