[PDF] European Medieval Drama 1997

Presented with a gloss, notes, an introduction, and a glossary, this edition of the lively Middle English play is perfect for any level of Middle English instruction and invaluable to those who teach early drama. For this third edition the author has added a substantial section on monastic reform and its effect on Biblical translation and the use of allegory; a final chapter charts the transition in different European countries from this medieval Gothic theatre to the neoclassical methods of play construction and representation which flourished for the next two hundred years.

European Medieval Drama 2. Papers from the Second International Conference on 'Aspects of European Medieval Drama' Camerino, 4

This accessible reference guide provides an entry for each of the extant interludes and fragments c. Available in PDF, EPUB and Kindle. There are full bibliographies, indexes of characters and songs, and appendices.
