The Sense of Reality: Studies in Ideas and Their History by Isaiah Berlin, Paperback

Appreciating Berlin's elaborate style is a matter of taste; some of his musings will hide the simplicity of the underlying point for a modern reader unused to this disappearing style. He addresses his essays to the general reader, and he speaks with such infectious energy that he sweeps us up and carries us with him into territory that had seemed inaccessible. The range is characteristically wide: realism in history; the history of socialism; the radical cultural revolution instigated by romanticism; The title essay, starting from the impossibility of recreating a bygone epoch, provides a superb centrepiece.

The Sense of Reality: Studies in Ideas and Their History by Isaiah Berlin

Will cannot be grasped from without.

The Sense of Reality Studies in Ideas and their History: Berlin, Isaiah: 9780712673679: skynet2550.us.to: Books

Berlin's writing style, breadth of knowledge and insight made this a wonderful historical ideology a pleasure to read.

The Sense of Reality: Studies in Ideas and Their History: Berlin, Isaiah, Hardy, Henry, Snyder, Timothy: 9780691182872: skynet2550.us.to: Books

Traditionalist conservatives surprisingly make similar errors to those made by revolutionaries on the left. I haven't been able to finish this - it struck me as a set of pretentious truisms for the most part. I have been reading on a book by Berlin titled The Romantic Revolution.

The Sense of Reality

Unintended consequences with a vengeance.

The Sense of Reality: Studies in Ideas and Their History by Isaiah Berlin

In the meantime, the far more numerous and very potent not-so-obvious parts of society are also bestirred, unaccountably, unpredicted,

unplanned, unguided.

The Sense of Reality

Now with a new foreword by Timothy Snyder and a new appendix comprising a previously unpublished essay on the great Russian critic Vissarion Belinsky and a previously uncollected lecture on utopianism, *The Sense of Reality* is a rich and illuminating collection from one of the most seductive writers and thinkers of the twentieth century.
