**D M Thomas: WELCOME!**

Cinque bacchette perché questo non è un romanzo. Il lettore viene lasciato libero di interpretare tutto il resto, ma d'altro canto non riesce a comprendere del tutto questo amore folle tra i protagonisti.

**Librarian of Snark: Review: Hideous Love**

So few words Yet so full of meaning. They weep with them when they are sad or shout for joy when something exciting happens for them.

**0670280704**

Acevedo—a spoken word poet herself—sure knows her way around a turn of phrase. I actually managed to find some time to read, mostly just before sleeping, and it was always hard to put it down.

**Gabriel García Márquez: 5 Amazing Books You Can Read in an Afternoon**

I would read for her again This book is ridiculous. I just didn't believe the characters, and therefore, I found a story that I just couldn't feel anything for. From the same publishers my translation of Pushkin's ONEGIN.

**Ariel Dorfman**

The last 10% is pure Mary sue wish fulfillment to the point I was wondering if I had changed books somehow.

**Loving her is a splendid adventure**

Universal inclusion is likewise impossible and would defeat the purpose of an anthology.
