tornado

They are most common along the Gulf Coast. If you, or someone you know, has been a victim of a tornado, please so we can prevent others from becoming a victim.

Is global warming behind record cold, intense storms and February tornadoes?

Get a Britannica Premium subscription and gain access to exclusive content. The tornado will gradually lose intensity.

Is global warming behind record cold, intense storms and February tornadoes?

NARRATOR: On May 22, a large thunderstorm heads towards Joplin, Missouri. Part of the reason is that these tornadoes missed major population centers, but a more important factor may be a greater tornado awareness. When that happens, cold, Arctic air sometimes pours down over the U.

Tornado Facts: Causes, Formation & Seeking Shelter

When it reaches the ground it is called a tornado. NARRATOR: Even brick houses couldn't withstand the force of this tornado. Still, scientists are coming to grips with the nature of these violent storms.

Educational Tornado Facts and Information

Often, a tornado will die because the cold outflow of air from falling precipitation upsets the balance.
