## U.S. Relations With Jordan

Migrants under this system, which leaves the door open to abuse and slave-like work conditions, are mainly female domestic workers from Sri Lanka, the Philippines, and, more recently, Indonesia.

## Jordan: We Do Not Want Palestinians :: Gatestone Institute

Official Jordanian policy rejects any renewed role, which would violate King Hussein's 1988 disengagement policy and the October 1994 peace treaty with Israel, which affirmed the international Jordanian-Israeli boundary as comprising the following sectors: the Jordan and Yarmouk Rivers, the Dead Sea, the Emek Ha'arva-Wadi Araba, and the Gulf of Aqaba. Facts and history are very stubborn things and they never go away, no matter how much revision you do.

## U.S. Relations With Jordan

In addition to receiving Palestinians, Jordan has also hosted forced migrants from other countries in the Middle East, such as Lebanon during the 1975-1991 civil war, and Iraq since the 1991 Gulf War and after the 2003 removal of Saddam Hussein following the Anglo-American military intervention. Although criminal events are less prevalent in western Amman, crime remains a concern.

## U.S. Relations With Jordan

They assassinated a Jordanian king for trying to live peaceably with Israel, why should the Jordanians embrace Palestinians as their brothers? Whatever turn Jordanian policies take, secondary migration to Western countries is likely to continue for some time via family reunification and other channels such as immigration and asylum schemes.

## Jordan's new electoral law: reform, reaction, or status quo?

In addition to Palestinians, forced migrants from Lebanon's civil war in the 1970s found their way through the kingdom to settle in the United

States, and Iraqis have used Jordan as a base since the 1991 Gulf War to seek asylum in Europe and elsewhere. Due to regional tensions, practitioners of certain faiths may experience increased scrutiny and unwelcome attention. Amman thus annexed Judea and Samaria and renamed it the West Bank.

### **The Washington Declaration**

It is high time that Arab countries be made to help their brethren rather than use them as political pawns in their desire to see Israel's annihilation and a continuance of war.

### **Jordan: We Do Not Want Palestinians :: Gatestone Institute**

Among those expelled in 1991, a significant part used Jordan as an entry point to the West Bank. The only confabulation is your comments.
