Science and civic life in the Italian Renaissance

What most concerned Renaissance political theorists, Hankins contends, was not reforming laws but shaping citizens. New problems emerge from the growing availability of large databases and new methods are needed to retrieve significant information from those large information sources. Revived on the stage of modernity by La Péruse in the sixteenth century, Corneille in the seventeenth, and the operatic composer Cherubini in the eighteenth, her stagecraft and her witchcraft combine, author Amy Wygant argues, to stun her audience into identifying with her magic and making it their own.
