## The Bay At Nice review: Enigmatic Penelope Wilton delights in this thin and dry play

Public and private worlds intersect as Valentina is required to judge the validity of both a painting and a passion. Even though I regret the decision to ditch the companion piece, Wrecked Eggs, The Bay at Nice stands up well as that unfashionable thing: a play of ideas.

## The Bay at Nice

Apparently when Eve left the Garden of Eden she took a lemon with her. The result is a serviceable and attractive painting that goes well with the furniture but doesn't enliven the room. But wait a minute...according to the Cathedral history, her bones arrived in 1060.

## The Bay at Nice review

The Bay of Angels and a fish story At one time the bay had many angel sharks in it. Killed by the Romans... They tried to burn her at the stake but it started to rain and put out the fire. Giving almost as good as she gets, Ophelia Lovibond is excellent as Sophia; patronised, forced to explain herself, intimidated into defiance against her mother and her strictures.
