## Human history

From around 550 BCE, many independent kingdoms and republics known as the were established across the subcontinent. Main articles: , , and Early humans measurements indicate that the ape lineage which would lead to Homo sapiens diverged from the lineage that would lead to and , the closest living relatives of modern humans, around 4. The valley in China cultivated and other cereal crops by about 7000 BCE; the valley domesticated earlier, by at least 8000 BCE.

## Human history

.

## Human history

Engineering improved access to river water and the inhabitants excavated canals for irrigation.

## Hohokam

Most Western European and Central European countries gradually formed a political and economic community, the , which expanded eastward to include former. Europe's maritime expansion unsurprisingly—given the continent's geography—was largely the work of its Atlantic states: Portugal, Spain, England, France, and the Netherlands.

## Human history

The great depended on of territory and on the formation of defended settlements to become agricultural centres. The Rise of the West: A History of the Human Community.
