The book reveals their contradictions by highlighting the lives of the homeless, new-comer foreign migrants, residents in poor housing and many other socially excluded groups.

### Jobless Youths and the NEET Problem in Japan

As a result, young, less-educated males from poor families in Japan have become more likely to lose interest in work rather than those in middle-income families. Abstract This paper empirically examines the determinants of non-employed young Japanese people, whose number increased from the 1990s to the beginning of the 2000s.
