### Integration of women in development: why, when, how

This means that gender is not immutable but also changes and, in this sense, is both socially constructed and reconstructed through time.

### Economic integration of women in the MENA region

Even highly skilled immigrant workers may have different experiences based on their gender. The problem with the women in development approach is that it targets women in order to make them a part of mainstream development while ignoring the fact that women are already an intrinsic part of the development process.

### Integration of women in development: why when how.

**Women and Migration: Toward Theoretical Clarity** Since the 1960s, international migration theory has indeed become more gender sensitive, moving from the predominant view of female migrants as simply the wives and children of male migrants to incorporating explanations of the unique experiences of women migrants themselves. This would inadvertently undermine the gendered view of migration that helps explain the experiences of both males and females. Legislation ensuring equal pay for equal work or for work of equal value should be instituted and enforced.

### Issue 7: Women Empowerment

The full participation and partnership of both women and men is required in productive and reproductive life, including shared responsibilities for the care and nurturing of children and maintenance of the household. These are academics, feminist activists and development practitioner. On the contrary, the conservative regions, although they often have important natural resources, struggle to make progress financially.

### Integration of women in development: why when how.

These brought about a negative impact and outcome towards most developing nations development and it also help to further impede on its progress. Education is one of the most important means of empowering women with the knowledge, skills and self-confidence necessary to participate fully in the development process. A United Nations report on women and migration argues that the impact of women's status and roles on their propensity to migrate must be considered at three levels: individual, familial, and societal.

**Article: Women and Migration: Incorporating Gender..**

The power relations that prevent women from leading fulfilling lives operate at many levels of society, from the most personal to the highly public.

**Women in development**

Gender is seen as a core organizing principle that underlies migration and related processes, such as the adaptation to the new country, continued contact with the original country, and possible return.
