Unilever Launches Its Largest Refill Trial in Europe

Over the half, India grew double-digit across all of our divisions and we led on pricing in all categories, with high cost inflation, such as skin cleansing and fabric cleaning.

Unilever

The company, which experienced keen demand for hand cleaners and household cleaning products last year as the coronavirus outbreak spread, said it continued to be impacted by the pandemic. So, we're confident on staying above 50% on competitiveness and the immediate forward look looks really good. Plastic pollution In 2019, Unilever was cited by BreakFreeFromPlastic as one of the top ten global plastic polluters.

Unilever

Jeff Stent -- Exane BNP Paribas -- Analyst Yeah.

Unilever workers will never return to desks full

The Bestfoods acquisition increased Unilever's scale in foods in America, and added brands including , , , and to its portfolio. While we expect an improvement from the fourth quarter of 2019 into the first half of 2020, first half underlying sales growth will be below 3%.
