## Volcanism of Canada

In June, two large occurred throughout Eastern Canada, resulting in several casualties. Their flatness is due to coastal erosion, such as waves and winds.

## Volcanism of Canada

This figure was almost twice as high among immigrants 29% than those who were born in Canada 17%. The government is increasing access to legal aid and providing long-term and stable funding to the Indigenous Justice Program for community-based programs that use culturally relevant restorative justice approaches, in appropriate circumstances, to help address the over-representation of Indigenous peoples as accused, victims and offenders. Conditions have existed and still exist for zoonotic diseases like COVID-19 to develop.

## Volcanism of Canada

This has improved financial security for nearly 900,000 seniors—approximately 70 per cent of whom are women—and lifted an estimated 57,000 people out of poverty. This Act strengthens ecological protections and will ensure that ecological integrity is the top priority in the management of Canada's first national urban park, while recognizing its important cultural heritage and providing greater certainty for the continuation of park agriculture. Click to see more information The government has completed consultations and policy research and analysis on fair wages policies and is now considering options moving forward.

## Fourteenth Amendment to the United States Constitution

While the pandemic affects all Canadians, we did not all have access to the same resources and choices before or during the pandemic, leading to different health, social and economic impacts.

## From risk to resilience: An equity approach to COVID

The November 2018 Report of the Auditor General identified a number of areas for improvement. While serological COVID-19 tests started to be implemented in Canada in late spring 2020, one study conducted by Canadian Blood Services suggested that fewer than 1% of provincial residents, excluding Quebec, were exposed to the virus by mid-June. Nemer also advises the government on ensuring that government science is fully available to the public, that scientists are able to speak freely about their work, and that scientific analyses are considered when the government makes decisions.

### **Mandate Letter Tracker: Delivering results for Canadians**

The knowledge of COVID-19 continues to evolve. Full, free and voluntary access to modern contraceptives as part of a comprehensive package of sexual and reproductive health services is essential to supporting women to gain control over their bodies and lives.

### **Volcanism of Canada**

Canada is collaborating with the US on the Binational Northern Approaches Surveillance Analysis of Alternatives for an innovative technological solution to early warning and to improve Arctic surveillance and control. A shift to virtual services was also evident among community services organizations.

### **Fourteenth Amendment to the United States Constitution**

Ableism fundamentally devalues and neglects the lives and contributions of many individuals, raising serious concerns during the pandemic as some persons with disabilities may be at increased risk of acquiring COVID-19 or suffering from severe complications.
