KDOT: Projects and Studies

Unit Plans address areas of critical concern for the transportation system that are identified in the long range transportation planning process. A significant number of pedestrians walk along the Washington Street corridor and between off-site BIW parking and the main productions area. The first public meeting was held September 20 at Bath City Hall.

Special Studies

Contacts Cole Hiniker Metropolitan Council 651-602-1748 Daniel Pena Metropolitan Council 651-602-1968. The region is also served by five other regular-route transit providers that serve suburban communities and the University of Minnesota. The study will include evaluating multimodal transportation needs identified through an analysis of existing and future conditions.

Special Studies

This memo also describes an approach for determining whether new service in unserved areas may be warranted.

The study provides insights on how resources are currently distributed between these roles, and how these roles are valued differently through the lens of a technical evaluation versus input from regional stakeholders on a shared vision for transit. SOUTHERN PINAL COUNTY REGIONAL CORRIDOR PARA STUDY A study by Pinal County joint sponsoring with the City of Eloy and the Town of Marana to enhance the transportation network, improve access to and from major employment centers, and facilitate freight movement, all of which will increase economic development potential. Study Data: Not everyone is familiar with the information needed to identify solutions in a transportation study.

Transportation Studies

The Access Management Manual provides guidance on the implementation of access management for RSRSM to Pinal County, local jurisdictions, Native American Communities, and private developers. Follow up efforts, including additional stakeholder meetings and feedback solicitation are scheduled to continue through early 2021.

Transit Service Allocation Study

Related study : Metro Transit is working on a two-year effort to develop their vision for the bus network of 2040. The FLMA has flexibility to determine the best means of addressing this need.
