The Liturgical Critique of Technological Culture

But at the very moment this book is being written, Ivan Boesky is in prison serving time for illegal trading on the stock market and for criminal activity on Wall Street. Schuurman helped with that, by the way.

Spiritual Warfare

When we lose that fear, we fall off course as quickly and tragically as the impulsive Icarus and Phaethon did.

5 Prayers for Wisdom, Knowledge and Discernment

Descartes no longer acknowledges the integrity and intrinsic worth of plants and animals but sees them simply as manipulable things. Why Are Teachers Important In Our Society? They Have Influence

Scandals such as LIBOR and Iran-Contra reveal to us both in the past and present that governments and large corporations are often in the habit of conducting shady business behind the scenes, and then denying the fact and making excuses when they are caught. We ought to recognize that consequences of an action may extend over the long-term, and that the effects of such consequences on the actor or on others must not be ignored.
