Often with land and outbuildings the cortijo typically has excellent views of the countryside and excellent illumination. With Fincas generally having large plots, they lend themselves to buyers wishing to keep animals or even to grow their own fruit and veg. The property has a very light and warm natural feel thanks to the natural materials that we used when we renovated it: terracotta tiles, stone floors, exposed stone walls, traditional oiled wooden doors and shutters and hand made decorative tiles used tastefully throughout.

**Espana Rural**

Unbeatable location for rentals and fulltime living.
