Impact of information technology on personnel management. (1993 edition)

Additionally, Information Technology is responsible for the legal, safe and secure storage of all server based data such that in the event of a server failure or building disaster, the data can be recovered. The final three machines are located at the Board of Pardons and Parole at the Rowland Center in Waterbury. According to Flippo, Personnel management is the planning, organizing, compensation, integration and maintenance of people for the purpose of contributing to organizational, individual and societal goals.

Information Technology Department

For certain inmates, however, data is not available due to statutory limitations or public safety concerns.

Information Technology Department

The problems and grievances of people at work can be solved more effectively through rationale personnel policies. Those applications include Case Notes a community supervision tracking system TAG10 an inmate commissary and banking system CMMS a maintenance tracking system, CAPI an inmate photo system, Offender Query Builder an ad hoc query system of offender data, just to name a few.

Personnel Management

We also have units at three Parole Offices New Haven Parole and Community Services, Waterbury Parole and Community Services and Hartford Parole and Community Services. It is also the goal of the Unit to provide timely, consistent and accurate information to those requiring information from the Department. Personnel management can be defined as obtaining, using and maintaining a satisfied workforce.
