His work has been published in edited volumes from Routledge and John Benjamins and in journals such as *Diachronica* and *Revista de Historia de la Lengua Espanola*. In 1a, the non-present referent MOTHER is localized at location 3a see Figure by means of INDEX 3a, a pointing sign index finger extended targeting a locus in the front right ipsilateral area of the signing space.

Boundaries of Pure Morphology: Diachronic and Synchronic Perspectives

Under the terms of the licence agreement, an individual user may print out a PDF of a single chapter of a title in Oxford Handbooks Online for personal use for details see and. We propose that this difference is due to an asymmetry in verb movement: While *v* always moves to *T*, the lexical *V* does so only in the case of agreement verbs regular and backwards, see Section 4. In other words, the root of a regular agreement verb never fuses with the DIR-morpheme in 7b, and the root of a backwards verb never fuses with the DIR-morpheme in 7a.

Difference Between Synchronic and Diachronic Linguistics

DIR is claimed to be a bound morpheme which fuses with the root. He received his PhD in Hispanic Linguistics in 2013 from The Ohio State University, specializing in phonetics, phonology, and historical linguistics. Crucially, there are no cases reported in the literature that would exemplify the opposite development from agreeing to plain verb see; for empirical studies on the development of plain verbs into agreement verbs in ISL; see for the emergence of spatially modified verbs in Nicaraguan Sign Language.

He is the author of *Os sons do português: Uma introdução prática à fonética e à pronúncia da língua portuguesa* Routledge, 2018. To this day, there remains considerably fewer Confederate monuments than Union monuments.

Palatal Sound Change in the Romance Languages

San Diego, CA: University of California, San Diego dissertation. And third, for SOV languages like DGS, the clitic analysis needs additional syntactic machinery such as verb raising to derive the correct order of verb and clitics. However, if gapping only involves PF-deletion, as is standard, the fact that the agreement verb is not overtly realized should not affect the binding of the variable, which would still be present in syntactic structure.
