## Municipal Government Toolkit

Find out the benefits of sending your old plastic wrap and used bags for recycling. When conducting recycling outreach, it is important to think of the public in two different groups — those who recycle, and those who don't. A Regional Recycling Collection Hub is a facility that accepts truckload quantities of recyclables from several surrounding communities and transfers them serves as a transfer station to long-haul transport vehicles bound for the materials recovery facility MRF.

## Environment

Many families recycle until their bin is full and then the overflow ends up in the trash. To avoid the high transport and separation costs being imposed on the smaller, low-volume rural programs in Georgia, a novel concept of regional hubs was initiated.

## Environmental Sustainability

Write a citizen incentive program into your contract. Collection Creativity: Every program should maintain collection creativity.

## Environmental Sustainability

Here's how you can dispose of them properly. Be prepared to participate in the business economy side of recycling. This setup is innovative since the hauler has an immediate stake in the recycling process and an incentive to recover as many recyclable materials as possible.

## NJDEP

Consider requiring your hauler to participate in recycling education. More materials equal fuller trucks.

## What materials can my business recycle?

As we remain committed to protecting the safety and health of the public during this national and state emergency, DHEC's Environmental Affairs staff is also focused on actions we can take to assist our business partners while continuing to provide opportunities for meaningful public involvement during this unprecedented time of impact and uncertainty. For one thing, recycling programs encourage people to you guessed it recycle.
