Items Acquired by the Library in April 2014

Dodo was the first of over 100 books that Fred was to write including many novels and short stories dealing with the supernatural, in which Fred had a fascination. Unde cum ponderibus sit librata suis, mirum est unde motus terrae proveniat.

Lambeth Palace (CA10)

Whereas, of course, the observation really stems from the greater resilience of wooden buildings to earthquake vibration. The present house is late C18 to C19.

Court of Arches

He was active in research, and had two main subjects of interest: one was the properties of various mineral waters, and the other was mortality and its possible links to different factors, especially of a meteorological nature.

Library

The archaeologists managed to uncover the original constructed by Henry Wise which ran westwards from the West Front of Buckingham House.
