### Challenges of renewable energy penetration on power system flexibility: A survey

This governance structure appears to be working well in promoting the mission of the market. The report appeased critics by keeping all committees intact and suggesting only minor changes to committee jurisdiction.

### Legislative Assembly of New Brunswick

As discussed in the next chapter, the committee recommends forming a special stakeholder committee that will develop guidelines to prevent market power abuses. Not only must the system be made more efficient, but questions about equity and fairness must also be addressed.

### **Evaluation reports**

The ambitions proposed in this version of the CIF are intended to start a conversation on where Canada would like to be in 2030 with each SDG.
