### Tents

In humid conditions condensation can accumulate inside, so a single-wall tent is best for cold, dry conditions.

### Backpacking Tents: How to Choose

Some cabin tents slope inwards halfway up or towards the top for better durability in extreme weather.

Mesh windows help with ventilation, so you enjoy fresher air and. Floor area: This number indicates total square footage of floor-level space. Do you want a canopy for the primary purpose of sheltering your car from the elements? The vast majority of hikers, especially newcomers to the backcountry, will choose a three-season tent.

### Camping Tents for sale

Other features range from waterproof to ultraviolet protection, high altitude, mosquito nets, organizer pockets, and mesh panels for cross ventilation. Pole clips: Poles connect to tent canopies via clips, sleeves or a combination of the two. A toilet tent gives you an extra private room doubling as the bathroom no matter how secluded a camp location.

### Tent

Screen-rooms are designed similar to cabins, keep out bugs, and allow full view of the surrounding scenery. You can use a tarp for the same purpose, but each footprint is custom sized to fit a particular tent.

### Tent

If you choose carefully, though, you should be able to find a lightweight tent that feels reasonably roomy and comfortable to you.

## **Tents**

Test-pitch tents: Visit a store and ask to set up prospective tents so you can hop inside them. You will probably pack more tent-related gear e. They also allow more airflow underneath the rainfly, which reduces condensation.
