Springer Wood Science: Fiber Atlas : Identification of Papermaking Fibers (Paperback)

Color Atlas for Fiber Identification. Having identified the apparatus for determining the TD Index, the procedure for determining the TD Index can now be described.

[PDF] Grass species as raw material for pulp and paper [electronic publication]

Colors are produced artificially by adding coloring agents rather than by letting a natural tone speak of the history and personality of the fiber itself. Soft tissue 1993-06-24 2004-12-07 Kimberly-Clark Worldwide, Inc. The first 3 chapters survey the early English paper industry, and its growth to the end of the eighteenth century.

Fiber Atlas: Identification of Papermaking Fibers by Marja

In another example, the hospitality of a Minister in Baghdad, Ibn Al-Forat, had been described by his generosity in freely handing out papers to his guests or visitors. The importance of Excise Taxation on paper was an important economic factor in preventing the paper industry's rapid growth.

Fiber Atlas : Identification of Papermaking Fibers (eBook, 1995) [skynet2550.us.to]

A ratio of twenty parts stain to fiber is recommended.

An atlas of paper

During papermaking, cellulose fiber very rapidly accumulates metals dissolved in water, be they favorable or unfavorable to the permanence of the paper. Lastly, for the coarsest kinds, the feet and ears of oxen, and the cartilages of old animals are employed. Fabric for use in the manufacture of tissue products having visually discernable background texture regions bordered by curvilinear decorative elements and method thereof 2001-11-02 2004-11-23 Kimberly-Clark Worldwide, Inc.

Elsewhere in his memoir, I-Ching wrote that Indians use paper to make hats, to reinforce their umbrellas and for sanitation. Newer or less fine linens and cloths may have fermented more quickly, as Lalande reports, simply because they contained components that acted as food for a larger organism population. The main source for the raw material is plants of the Gramineae family.

Material properties of Islamic paper

Also, the application of high consistency working forces improves the tissue making character of the fibers by decreasing the tensile and tearing strengths while increasing bulk.
