**Critique philosophique**

The eroded the value of the Aesthetic, as it proved to be incompatible with relativity, famously causing neo-Kantians to write. Originally conceived as a response to the errors in Louis Moréri's Grand dictionnaire historique, his Dictionnaire historique et critique grew to be an exemplary work of critical methodology.

Hereby Schopenhauer shows that compassion is not the basis of morality, since is not motivated by compassion. Rousseau was induced by his resentment to give in his a malicious portrait of Grimm's character. Historical tableaux lend much reality to the biography, and he has pictured some interesting customs in high relief.

## **Pierre Bayle**

The text of the main articles is located at the top of the page, in one broad column. At first he contented himself with enumerating the chief current views in literature and art and indicating very slightly the contents of the principal new books, but gradually his criticisms became more extended and trenchant, and he touched on nearly every subject — political, literary, artistic, social and religious — that interested the Parisian society of the time.
