Our Layouts

The steam-outline diesel locomotive, built by , is named after , who was born at Blenheim in 1874. At Easter, with time on my hands I started a micro layout based on Julian Andrews brickworks plan, this has never got beyond the initial phase other than a few tweaks as I searched for a suitable aesthetic for the rolling stock, and failed to get the result I wanted using KB Scale kits nothing against the kits - just how I wanted to use them, and then some doubts over alternative scratchbuilds. In addition to ore removal the railways were used to transport anything which needed moving, be it tools, pit props, machinery, explosives or men.

O9 Modeller

The 3 ft 6 in 1,067 mm gauge climbs the island's main peak and is the sole operating in the world.
