**The American whaleman : a study of life and labor in the whaling industry : Hohman, Elmo Paul, b. 1894 : Free Download, Borrow, and Streaming : Internet Archive**

. If an idea or a theory is working in the sense of being put into practice, its proceedings and impacts become phenomena in the world on the level of practices that can be observed, analyzed and explained in empirical studies.

**The Project Gutenberg eBook of The Place of Science in Modern Civilisation, by Thorstein Veblen.**

The Menzies increase burdened not only persons who were borrowing to build or buy a house for the first time, but also all persons who were still paying off a house for which they had borrowed.

. In the process, this emerging field of investigation and its practices would substitute the traditional emphasis on legal-rational bureaucratic authority with social-scientific theories and principles of management and organization Weber 1947; Fischer 1990. Moreover, his models of policy advice, his theory of communicative action, his concepts of the public sphere, discourse ethic and deliberative democracy became reference points for many debates on practical perspectives for policy-making in modern democracies.

**Walt Whitman Archive**

Sharpe, 2011 and co-editor of Practices of Freedom: Decentered Governance, Conflict and Democratic Participation Cambridge University Press, 2014. Under the stress of modern technological exigencies, men's every-day habits of thought are falling into the lines that in the sciences constitute the evolutionary method; and knowledge which proceeds on a higher, more archaic plane is becoming alien and meaningless to them.

**The Project Gutenberg eBook of The Place of Science in Modern Civilisation, by Thorstein Veblen.**

With the advance in intelligence and experience there come closer observation and more detailed analysis of facts. I believe that only a Labor Government will guarantee such a return. This is a searchable index of the men and ships on whaling voyages from New Bedford Custom District from 1807-1925.

### **Putting the Ocean in Atlantic History: Maritime Communities and Marine Ecology in the Northwest Atlantic, 1500**

Such is necessarily the case because causation is a fact of imputation, not of observation, and so cannot be included among the data; and because nothing further than non-committal variation can be expressed in mathematical terms. But many also began by making new contributions as well, especially in matters related to policy implementation and evaluation.
