About

George Winston, who labored at revising newspaper accounts of the past, had a special tube at his desk. In addition, the authors argue persuasively that a language of euphemism and distraction continues to dominate public debate about nuclear weapons and nuclear power around the world. A mindset acts like a filter, sorting information and perceptions, allowing some to be processed and some to be ignored, consciously or unconsciously.

Nukespeak : Hilgartner, Stephen : Free Download, Borrow, and Streaming : Internet Archive

. Given the degree of uncertainty and complexity attached to even the most tightly framed and rigorous nuclear risk assessment, attempts to weight the magnitude of accident by the expected probability of occurrence has proven problematic, since these essentially theoretical calculations can only be based on sets of pre-conditioning assumptions. Before Fukushima, advanced industrialized nations were thought to be able to safely generate electricity through nuclear power; post-Fukushima, that assurance melted down along with the reactors.

Demystifying Nuclear Power: Public Service Announcement: Nukespeak Watch

Before the accident at Three Mile Island, for example, nuclear proponents liked to claim that meltdowns were nearly impossible events, virtually unimaginable. Even the Chinese, who have the most reactors under construction of any country, suspended approval of new nuclear projects to conduct a safety assessment. Communities with existing nuclear plants are much less resistant to the construction of additional plants, making siting a much easier process than building on a new site.

Sex, death and aliens: a feminist watches 'Arrival'

Nuclear developers worldwide maintain the same culture and ways of thinking, and the same lack of transparency, as they did thirty years ago.

Demystifying Nuclear Power: Public Service Announcement: Nukespeak Watch

Nukespeak: Nuclear language, culture, and propaganda.

Stop cleaning up the language of nuclear weapons

But distributing the loan guarantees over all the investors does not change the underlying point: without the federal commitment of taxpayer money, these four companies would almost certainly not have gone ahead with this project. Language and the Nuclear Arms Debate: Nukespeak Today. Nuclear power added just 0.
